Claus Chairs with North Pole Sign

Claus Chairs

To truly capture the enchantment of the North Pole, we provide beautifully crafted chairs and displays that will transport your guests into a world of holiday wonder. Our Santa Claus chair is an exquisite throne, fit for the man in red himself. Its regal design and attention to detail make it the perfect centerpiece for Santa's magical presence at your event. Mrs. Claus' chair is equally charming, reflecting her nurturing and caring nature.

Our displays are meticulously designed to create a magical backdrop that will mesmerize both children and adults alike. We ensure that every element exudes the essence of Christmas. These enchanting displays serve as photo opportunities, allowing your guests to capture timeless memories with Santa and Mrs. Claus. Please note: These display options are an upgrade and are intended for commercial or large gatherings. They are not intended for home visits. A 25-child minimum is required for these display options.

We understand that every event is unique, and we are committed to tailoring our services to meet your specific requirements. Additional charges for these types of displays may apply based on the duration and specific services requested.
